Inspiration:

The bench is inspired from the undulating forms of nature. The design has been developed from the concept of contours wherein we see different landforms, some rising up like a hill and some forming a valley. The form is a combination of two types of contours, which also is finished using 2 types of materials, one natural & one contemporary creating a fusion piece of furniture.

CONTOURED BENCH

Premium Italian Wood Finishes by
ICA PIDILITE

Manufactured by
SWATI INTERIOR
