Inspiration

“Burnt Beauty: A Coffee Table That Bends Time”

This coffee table is a fusion of raw textures and fluid design. The burnt wood top carries the charm of aged timber, rich with deep, charred grains that tell a story of time. The rustic metallic base adds contrast, grounding the piece with an industrial edge. What truly sets it apart is its flowing curves — made possible by the thermal flexibility of Indowud Plywood, allowing the wood to bend and sync effortlessly. A statement piece that celebrates imperfection, craftsmanship, and the art of embracing age-old beauty in a modern form.
