Inspiration:

The amalgamation of contemporary elegance along with aesthetic arches.

The chair is explored with different arches combining together to redefine elegance. While viewing from side elevation, a parabolic arch is critically subtracted to form a void for leg area. The back elevation is formed by raising a round arch, wrapped by an ogee three centered arch blanket raising upwards as well as outwards to create lumbar support. The bottom ring is explored by slightly changing the center to allow it to travel outwards to form the foot support and then travel inwards to end on the inner surface in back elevation.

Premium Italian Wood Finishes by
ICA PIDILITE

Manufactured by
SWATI INTERIOR

Architect
